Emergency Connectivity Fund Program Newsletter

June 21, 2022

The FCC [announced](#) that it has received requests for \$2,814,736,532 in the third, and final, application filing window of the Emergency Connectivity Fund (ECF) program to fund 5,120,453 connected devices and 4,285,794 broadband connections. Because the demand exceeds available funds, applications will be prioritized to fund schools and libraries with the greatest need first, with a preference for schools and libraries located in rural areas, as explained in more detail in the [Frequently Asked Questions](#) on the FCC website.

ECF Window 3 in Open Data

ECF FCC Forms 471 certified during the third application filing window are now available in the [open data set](#) and [tool](#). You can filter Window 3 application data using the field 'Filing Window'.

SAM.gov Transition From DUNS to UEI

On April 6, 2022, the FCC released [Public Notice DA 22-371](#) announcing the transition from the Data Universal Numbering System (DUNS) number to the Unique Entity Identifier (UEI). At this time, only entities that receive direct payments or disbursements from the FCC must obtain a UEI and complete full entity registration in SAM.gov, including for the ECF Program. Most organizations who participate and receive payments in the ECF Program should have already registered with SAM.gov. If you are submitting requests for reimbursement for the ECF Program, you are required to register in SAM.gov and already have a UEI. No further action is required; USAC will reach out directly to these ECF participants if needed. If you will be submitting requests for reimbursement for the ECF Program and have not completed your registration in SAM.gov, you should do so now.

If you need help obtaining a UEI or have additional questions, please visit the [Contact USAC](#) page to contact USAC's Customer Service Center (CSC) for the ECF Program.

Frequently Asked Questions

Our school's summer break is coming up. Will there be a "Summer Deferral" Period for PIA inquiries in the ECF Program like there is in the E-Rate program?

No. In the E-Rate program, USAC provides applicants additional time to respond to requests for information about their FCC Form 471 or other program forms during the summer and winter holiday seasons when schools are not in session. USAC will place forms and requests in a deferred status for E-Rate applicants that do not respond during these times. However, given the emergency purpose of the Emergency Connectivity Fund, there are no seasonal deferral periods in the ECF Program. Applicants should continue checking the ECF Portal for requests for information and respond by the deadline provided. Failure to respond to requests for information may lead to the denial of an application. Updates to holiday and summer contact information can be requested in the ECF Portal at any time by using the “Contact Reviewer” button under the Communications or Related Actions tab.

Visit the [SAM.gov website](#) to complete or renew your SAM.gov registration. SAM.gov registrations must be renewed on annual basis. If not renewed, the account will be deactivated.
